Principal’s Message

I’m so relieved this term is coming to an end this week!! I think everyone is very tired. It has been quite an exhausting term with one thing or another.

I would like to thank all of those people who have assisted us throughout the term. It has been a very busy time. We have been assisted in classrooms, with catering on special days, excursions, barbecues, carnivals, cake stalls and more.

I would also like to thank our entire staff for their ongoing commitment to your children. They are always willing to go the extra mile (or kilometre!!)

I wish everyone a safe and happy Easter and holiday :) I know there will be a few sleep ins at my place! I look forward to seeing you all refreshed next term.

Please note our final assembly for this term will be at 9:10am on Thursday. Parents/Caregivers are most welcome to join us for this assembly.

We will be making our Easter hats tomorrow morning. We will start first thing at 9:10am. After assembly we will be making hats and participating in activities. The P&C Easter raffle will be drawn. We will have an array of materials for hat decoration and of course the children can bring along their own decorations. Parents/Caregivers are also welcome to stay and join us for lunch. We look forward to a morning of fun before our holiday break.

ELECTION DAY BBQ

Many thanks to Mel Towell for organising the Election Day BBQ. Thanks to Greg Wilson for transporting the equipment to and from the hall. Many thanks to Amy Grenfell, Rachel Jackson and Pauline Shoebridge who stayed for many hours and cooked up a storm. Thanks also to Michael Kidd and Ian Watt who helped my husband and I to have a lovely social time while overseeing the event!! It was a great team effort and very much appreciated.

The CARES program is an interactive program presented by NSW Police officers that will develop your child’s road sense. The program includes general road safety information sessions looking at helmets, bike maintenance and safety aspects of riding bikes.

The program will be predominantly outdoors and practical with students participating in an obstacle course enhancing their basic cycle skills before using simulated roadways to expose students to a variety of real road situations in a controlled safe environment.

All students are supplied with a 20 inch bike for use during the program but are required to bring their own helmet for checking & fitting.
